### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: The prior art teach the use of metal tricarbonyls having histidine as a ligand (Alberto et al, page 6), which reads on the instant metal carbonyl compound. The compounds are useful for labeling of biological substrates (Alberto, title). The prior art further teach the use of organometallic complexes for delivery of CO to tissue (Haas et al., column 16, Lines 53-67 and all of columns 17 ad 18). The compounds are useful for treatment and/or prevention of diseases including coronary diseases (Haas et al., abstract). The prior art however does not teach that the metal carbonyl compounds instantly claimed can be used to treat or prevent post-ischemic damage. Therefore, claims 1, 3-6, 10, 16-18, and 24-27 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
